BOLT K9 BOARD AND TRAINING

6-week Basic Obedience Training

All dogs can benefit from basic obedience training and socialization. Training is the key to a harmonious existence between you and your canine family member.

This is a beginner course that will allow you to start having the best relationship with your dog.

This is a 6-week course that consists of the following:

- Consultation – this will allow the trainer to assess the needs and temperament of your dog
- The classes will cover:
 - Leash manners
 - Training collars, how to use them properly
 - Sit, stay, down
 - Come / recall
- We will also work on socialization

We have found that a certain type of leash works better for training. If you do not have one, talk to us about purchasing one from us.
