

Callie's Story

We adopted Callie from a rescue. She is the most beautiful pitbull girl. Unfortunately, along with Callie came some insecurities on her part, some fears, and a limited tolerance for anyone outside of the family. We had Callie before we had children, and she was our baby. When we decided to have children, we knew we were not going to give her up but we also knew that we would have to make some modifications in her behavior so that everyone would be safe. Eddie was the answer to our prayers.

Eddie worked with Callie and managed to teach us how to get rid of her reactivity. Most of all he gave us tips and techniques to make her an amazing family dog. We now have two children and she could not be more gentle with them. She has appointed herself as the protector of our baby girl. We could not be more happy with how the training worked out. We plan to go back in the future when the children are older so that they can also learn how to work with Callie. Our son Who just turned three, has already mastered getting her to sit. I can't begin to express the amount of joy in my heart when he's running around the backyard with her and they are playing.
